

Provider Memorandum

MHIL Quality Incentive Program for 2022

Molina Healthcare of Illinois (Molina) introduces providers to the 2022 Quality Incentive (QI) program. As a top-performing Illinois Medicaid MCO, we know our success is rooted in our strong relationships with the provider community in caring for members.

We offer a robust Pay-for-Performance (P4P) program to acknowledge those relationships and to reward high-quality care for our members—your patients. For this year, we have revamped our incentive program in three ways:

- **Simplified the targets**—We reduced the number of HEDIS® metrics included, so that you may succeed using more focused efforts. This year, you may earn incentives based on performance on five (5) P4P measures.
- **Simplified the incentive structure**—In place of prior years' blended point system, we have created two clear benchmarks for each targeted HEDIS® measure; you will earn a payout for each measure you meet or surpass.
- **Two avenues for you to earn an incentive**—You may earn a per-member, per-month bonus payout based on performance, or a payout based on improvement versus last year. We expect that this change will give all providers access to some incentive payouts.
